8. Ducks Unlimited Grants Proposal: Call on Margit

As outlined in the memo included in your packet, Ducks Unlimited is requesting the Commission to become a partner in a grants program which will make grants to private landowners for enhancement of wildlife habitat. Here with us is Holly Liberato of DU who will answer questions from the Commission. You had a report from Commissioner McCarty indicating the support of the Budget and Finance Subcommittee.

Need MOTION, SECOND and VOTE to direct Chairman to enter into agreement with Ducks Unlimited on behalf of the Commission.

9. Continued Public Hearing on Marine Patrol and Public safety Background Report.

The public hearing was opened at the last meeting and one speaker made comments. In order to ensure that there had been adequate opportunity for public to comment on the background report, we are re-opening the public hearing. If you have comments ONLY on the findings, policies and recommendations, you should HOLD your comments until we open the public hearing on the Revised Draft Plan.

OPEN public hearing, ask for public comments, then CLOSE public hearing.

and, as required in the legislation: a letter from Robert Cervantes of the Office of Planning and Research

I have also prepared a memo, dated January 19, 1995 which summarizes the comments you received, in order, by element, with the page of the revised draft plan noted. Each comment has a number, so we can keep track of them. So you need two items at hand--the January 19 memo and the revised draft plan.

I would like to suggest that I go through the comments received to date; briefly give you my response to the comments; allow Commissioners to ask questions--holding Commissioner comments on the revised draft until the close of the public hearing.

We would then proceed to the public hearing, and after public comments are received, have Commissioner comments. There is no vote scheduled today, just the public hearing.
